

10 Courses

Regression Models

Exploratory Data Analysis

Developing Data Products

Statistical Inference

Practical Machine Learning

R Programming

Reproducible Research

Data Science Capstone

The Data Scientist's Toolbox

Getting and Cleaning Data

05/11/2018

Dr. Dennis Klinkhammer

has successfully completed the online, non-credit Specialization

Data Science

The Data Science Specialization covers the concepts and tools for an entire data science pipeline. Successful participants learn how to use the tools of the trade, think analytically about complex problems, manage large data sets, deploy statistical principles, create visualizations, build and evaluate machine learning algorithms, publish reproducible analyses, and develop data products. This certificate does not confer academic credit toward a degree or official status at the Johns Hopkins University.

Jeff Leek, PhD; Roger Peng, PhD; Brian Caffo, PhD

Department of Biostatistics
Johns Hopkins Bloomberg School of Public Health
